

MINES AND MINING STOCKS FINANCIAL AND COMMERCIAL

ELLING WORK AT HONERINE

ain Tunnel and Shaft Will Be Connected in Twenty Days.

TAH COPPER'S CONTRACTS

ATEMENT CONCERNING UNIT-

The month of January on the mining exchange witnessed about the smallest amount of business for that length of time in a year. The number of shares of stock changing hands was only 473.774, or just about what would have been a fair week's transfers in lively times: The selling value was \$14.712.48. Yesterday's trading was livelier than has been the case for a week or more, and it begins to look as though February would see a change for the better all around. During the shaft down. Maner W. F. Snyder stated yesterday the intervening distance is 100 feet that it was expected to have the ft completed by the 20th of this is means something to the Homeometry. It means that the means are the company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company. It means the most been correctly reflected in the was company.

company. It means that within month the wagon haul between the th of the old Honerine tunnel and company's milling plant and loadel will have been done away with it that all ore will go direct to the it that all ore will go direct to the it through the latter. At the mouth the connecting shaft, which is loced underground and to one side of old tunnel, a large station room has in hewn out of the solid rock, and it the long treits of constructions.

the long trains of cars brought out the mine will be switched and low-d to the station on the drain tunnel el. In this way there will be no adding of the ore from the time it is ded in the mine until it is dumped of either mill or shipping bins, acding to its grade.

the meantime the work of extendand the development of the mine is not forward as at present. The inne shaft from the old tunnel level now going down from the 900 to the 0-toot level, and the ore bodies on levels from the 900 up are being stantly explored and placed in shape heavy mining. Eventually these richnes will all be connected direct that the drain tunnel though the mine.

alker and George A. Black, Manager yder will make a trip of inspection the property today.

NEW EQUIPMENT ORDERED.

company yesterday awarded cts for a 1,400 cubic foot surface user and vacuum pump for use a twenty-five horse-power electric motive and generator with which mine is to be equipped.

CENTURY DOING WELL.

sessments Must Be Continued However, to Meet Obligations.

While little is being heard these day what is being done at the Century, d while Manager P. W. Madsen is erse to being quoted, it is averred at the mine and mill are doing well the present time. This, of course, es not mean that the proposition can run without further assessing to run without further assessing to an up outstanding obligations. In tt, it may be taken for granted that tring the next few hours another call

fring the next few hours another call to a share will be made upon the pekholders.

However, the past month's run at the ill is said to have been a satisfactory e, and, in addition to the bullion ade, the company will market during e present week a carload of concentes worth about \$2,000 and in the ates worth about \$2,000 and in the ighborhood of 700 pounds of "panags" worth about \$2 per pound. There reason to believe, therefore, that the entury may yet surprise its friends id confound its detractors.

STRIKE IN NEW COUNTRY.

e Worth \$100 to \$2,000 a Ton Near Luning, Nev.

Advices from Luning, Esmeralda counNevada, under date of Saturday last,
e to the effect that during the last
w days a rich and important strike
s been made about two and one-half
iles southeast of Pactolus and about
ty miles northwest of Tonopah, and
it a few miles southeast of Luning, on
e Berlin stage line.
The fortunate men are Messrs. Clark
id Fry. two prospectors. At present
e two men have several ledges exposed,
eraging from four to six feet in width,
rrying values running all the way from
0 to \$2,000 per ton. This big find was
ade in the low porphyry hills, surroundby lava, and extending for a considable distance.
A number of claims have been located
i the rich find and several prospectors
we now in the district, which shows all
dications that the mineral belt is connuous between Tonopah and Pactos.

TONOPAH-GOLDFIELD ORES.

ver 1,600 Tons Shipped to Smelters

The ore shipments over the Tonopah illroad last week, as reported by the iner, aggregated 1,648 tons, of which I tons came from Goldfield. The shipents are divided at follows:

From Tonopah—Tonopah company, 930 ons; Montana-Tonopah, 177 tons; Belont, 79 tons; Tonopah Extension, 260 ns. From Goldfield-Florence, 89 tons; Conna'ion, 22 tons; Jumbo, 116 tons; Southestern Nevada Mines company, 10 tons.

PROPERTIES TURNED OVER.

d Freudenthal Takes Charge of the Majestic For Newhouse Today.

It was learned yesterday that, on tele-raphic instructions from Samuel New-ouse, possession of the Majestic com-any's mines and smelters will be taken aarge of in his name today. Ed F. reudenthal, who has been serving the tajestic company as superintendent since at August, was directed to take charge, and it is presumed that he had done

is estimated by United States Mininterests that by the time the Mamin smelter is completed and in operatine United States Mining company be able to demonstrate an earning city of \$5 per share for the outstand-170,000 shares, as follows:

DALY-WEST A PUZZLE.

For Fluctuations in Stock.

The recent reaction in the price of Daly-West mining stock. following as it did the recent spasmodic advance in the same, has called out a deal of questioning as to the reasons therefor, says the Boston Journal. These fluctuations have really, as many people view it, served to emphasize the fact that such buying as has been in evidence of late has been for the purpose of enabling certain people to secure changes at the annual meeting to be held next month.

The recent advance was a surrarige to the people who are most familiar with the conditions at the property, and, according to advices conting from Salt Lake. buying as has been in evidence of late has been for the purpose of enabling certain people to secure changes at the annual meeting to be held next month.

The recent advance was a survaried by the people who are most familiar with the people who are most familiar with the property. Indeed, a prominent Salt Lake man who is a large holder parent good reasons for an improvement in the stock outside a possibne struggle for the control of the property.

So far as can be ascertained, there have been no recent changes at the mine. Sale of Daly-West on such large advances as that recently had, analog our position on what we believe we know of the mine than the stock at any possibn on what we believe we know of the mine that the stock at any possibn on what we believe we know of the mine that the stock at any possibn on what we believe we know of the mine that the stock at any possibn on what we believe we know of the mine that the stock at any possibn on what we believe we know of the possibn on what we believe we know of the possibn on what we believe in a strong enopie who are well informed that the mine is making a steady improvement; that the quarterly lividend soon to be declared will not be less than 75 cents good believe to get a full estamble of the mine to get a full estamble of the conditions at the property and hopes they are also as a possibn of the conditions at the property and hopes they are also as a possibn of the conditions at the property and hopes they are also as a possibn of the conditions at the property and hopes they are also as a possibn of the conditions at the property and hopes the property of the property

A Boston paper of Thursday last in commenting on the copper stock market, taied that it was understood that one trookerage firm in Sait Lake carried over \$0.000 shares of United States stock. One prokerage firm here is known to hole nore than 20.000 shares.

GREAT ACTIVITY IN NEW YORK

were 14.014 lower to a shade higher at 1.1814.01.1624. Domestic conditions, however, continued as bullish as ever, receipts in the northwest today being under those of the corresponding day last year, while in the southwest arrivals were extremely light. Under fair buying by commission houses the market soon became quite firm, May advancing to 1.1714. For a time prices held steady at the advance. Later another reaction occurred in general profit-taking. Following heavy liquidation by one of the leaders of the bull clique, pit traders turned active sellers. The result was a slump in May to 1.1678. The shorts took advantage of the break and covered freely, causing a partial recovery. The market closed firm with May at 1.1674.117. Clearances of wheat and flour were equal to 12.900 bushels. The world's visible supply as shown by Bradstreet's increased 1.007.000 bushels. The world's visible supply as shown by Bradstreet's increased 1.007.000 bushels. The world's visible supply as shown by Bradstreet's increased 1.007.000 bushels. MARKET IN HAND

Wall Street Ready to Rush After

New York, Jan. 31.—The London tin market was a little higher again, presumably on further covering by shorts, with spot closing at £132 78 6d and futures at £131. Locally the market seemed rather irregular and unsettled, with the spot position a little easier and trade juiet pending the monthly statistical showing. Spot is quoted at from 19 800.

New York, Jan. 31.—The London tin market was a little higher again, presumably on further covering by shorts, with spot closing at £132 78 6d and futures at £131. Locally the market seemed rather irregular and unsettled, with the spot position a little easier and trade guiet pending the monthly statistical showing. Spot 48 quoted at from 29.806 20.00. Some dealers were said to be asking as high as 20.1245, but settlers were reported around 29.35. Copper was also a little higher in London, closing at £58 18 3d for spot and £68 5s for futures. Locally the market remains firm and unchanged with take quoted at 15.50; electrolytic at 15.371261 15.50, and casting at 15.00615.57. Lead was unchanged at £12 15s in London and at 4.4564.55 in the local market. Spelter was unchanged at £28 18 6d. Iron closed at 538 6d in Glasgow and at 485 74 din Middlesboro; locally the imarket shows now material change. Demand is quiet far the time being and it is speculatively held that might possibly be picked up a little under the regular market, which, however, is still firm. No. 1 foundry northern at 17.596; No. 2 foundry northern at 17.596; No. 1 foundry northern is quoted at 17.506718.00.

NOTICE IS HEREBY GIVEN THAT the annual meeting of the stockholders of Beck's Salt company, a corporation of Utah, is hereby called and will be held at the parlors of the Wilson hotel in Salt Lake City, Utah, on Friday, Feb. 3, 1966, at 1 p. m.

This meeting was called in accordance with the articles of incorporation of said company by reason of the fact that said-company failed to hoid its regular, annual meeting for the year 1904, and is called at the above place for the reason that it has no general office at said Salt Lake City, and is called for the purpose of electing a board of directors for the ensuing year and to transact such other and further business as may come before the stockholders.

By order of the president.
